Drainage Improvements in Hartwell

WHAT/WHEN:

Crews from Trend Construction will install a storm water drainage system on DeCamp Avenue beginning the week of March 7. Workmen will install the drainage system -- manholes, inlets and slotted drains -- in the street and sod space.

Traffic restrictions will apply on DeCamp Avenue as follows:

During all working hours, crews will maintain a ten-foot lane, utilizing flagging procedures with stop/slow paddles. During all non-working hours, they will open the entire roadway to traffic.

The company will complete the project by April 2005.

WHERE:

Street

From

To

DeCamp Ave

Vine Street

Woodbine Avenue

The Department of Transportation and Engineering oversees the rehabilitation and improvement of streets in the City of Cincinnati. The Department also handles transportation planning, design, engineering services, structural and geotechnical services, right of way regulation, and construction management. It is the clearinghouse for all City and regional transportation functions, and serves as a liaison to the Southwest Ohio Regional Transit Authority.
